

PLANT STAKES

Designed by Jacqueline Ernst 2010

© Pig Wings & Promises www.PigWingsAndPromises.com/plantstakes_pu.pdf

Make a set of garden stakes with identifying tags to mark seedlings and new additions to your garden, or to personalize a potted gift plant!

Copy the designs shown above onto card stock. Color as desired. Write plant ID in space provided. Write any gift message on tag back.

Cut out finished tags. Laminate. Trim each hang tag leaving about 3/16" of clear laminate all around.

Punch **HOLE** in tag top as marked. Bend wire coat hangers into crooks as shown at right. Poke into soil. Hang laminated ID tags from crooks.
