

## Book Mark Greeting Card

The Greeting Card layout at right fits a #10 business envelope. Copy it onto card stock. Using craft knife, cut along solid line at right. Fold card along center dotted line.

Cut out the window in the Gothic Arch.

Cut out the knight.

Run a threaded needle through the top of the knight's helmet to create a hang tag.

Using clear tape, adhere thread to back side of arch so knight faces front and dangles freely in the window.

Alternative: Glue motto below inside card so it is visible through window. Use knight as gift tag.
